

Antelope Valley—Ivan H. Strudwick, Archaeologist

2009 Southern California *Drosophila* Conference

Sponsored by:

The Developmental Biology Center
University of California, Irvine

Friday, September 11, 2009

9:15 a.m. to 6:30 p.m.

Microscopy and Imaging exhibits and Continental Breakfast 9:00-9:50 a.m.

Kavita Arora

University of California, Irvine

“Activin signaling in neuronal development”

Ethan Bier

University of California, San Diego

“Using flies to gain insights into human host-pathogen interactions”

Robert Drewell

Harvey Mudd College

“Promoter-enhancer interactions at the Drosophila Bithorax Complex”

Mahtab Jafari

University of California, Irvine

“Rhodiola rosea and lifespan extension”

Amy Kieger

University of California, San Diego

“Phosphoinositide roles in membrane organization and cellular remodeling”

Taosheng Huang

University of California, Irvine

“A Drosophila model for optic atrophy”

Sergey Nuzhdin

University of Southern California

“Genomics of expression variation”

Diane O’Dowd

University of California, Irvine

“Cellular mechanisms regulating network activity”

Jim Posakony

University of California, San Diego

“A master of self-control: Negative autoregulation by neuralized”

Anandasankar Ray

University of California, Riverside

“Inhibition of CO2 avoidance in Drosophila: A novel paradigm for behavior modification”

David Walker

University of California, Los Angeles

“Mitochondrial modulation of lifespan”

Generous support provided by:

•No Registration Fees

•Pre-registration requested

Contact Jan Strudwick:

jstrudwi@uci.edu (949) 824-5957

Conference updates at <http://dbc.bio.uci.edu/>

•Refreshments and Lunch Provided

Driving directions and maps available at:

<http://www.uci.edu/campusmaps.shtml>

Parking: Engineering Parking Structure

Organizers

Kavita Arora: karora@uci.edu (949) 824-1087

Jan Strudwick: jstrudwi@uci.edu (949) 824-5957

Jennifer Walker: jennifer.d@uci.edu (949) 824-1984

Ground Floor Auditorium
Cal IT II Building
University of California, Irvine
