

Spinning Disk Demo

hosted by Brian Cummings, PhD

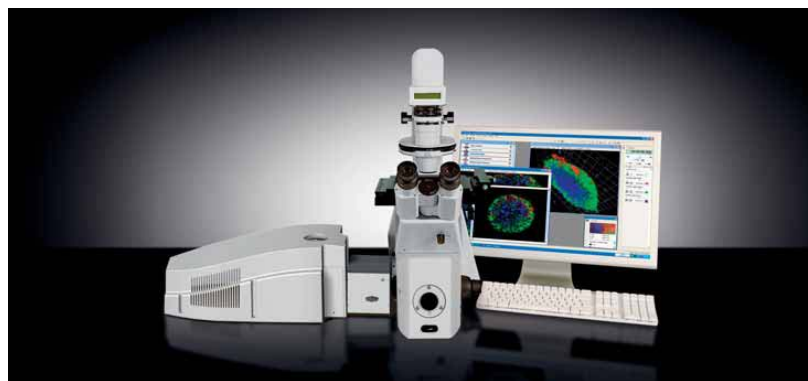

Friday, September 18th, 2009

Group demo presented by Kevin Quick, PhD (Confocal Application Scientist) and Paul Miller (Volocity Specialist) from Perkin Elmer Inc.

10:00-12:00, in Gillespie NRF room 2135

Individual demonstrations can also be pre-scheduled

This demo will be focused on providing researchers with a comprehensive understanding of the principles of spinning disk microscopy and its applications, through use of the new UltraVIEW VoX spinning disk confocal imaging system. In addition to acquisition, we will be providing data analysis utilizing Volocity software which is a resource available at the UCI Microscopy Shared Facility.

For more information or to schedule a demo session for your lab please email Liz at ehinde@uci.edu or call the OBC facility at (949)824-3856. Thank you!
