

Developmental Biology Center Friday mini symposium & Happy Hour

**Friday, October 20th, 3:00-5:00 p.m.
Natural Science Bldg., Room 1114**

3:00	Welcome and announcements
3:15 – 3:40	Ken Cho Genomic approaches to study gene regulatory networks
3:45- 4:10	Craig Walsh Modulation of T cell proliferation and apoptosis by the apoptosis adaptor FADD
4:15 –4:30	Break
4:30 – 4:55	Mike Cahalan STIMulating CRAC: molecular identity and mechanism of store-operated calcium channels.
5:00	Happy hour

The **Developmental Biology Center** invites you to a series of Friday afternoon mini symposia to facilitate and promote interactions among research labs across campus. This is open to all members of the UCI research community (Grad students, post docs, research staff and PIs).

Refreshments will be served followed by Happy Hour at 5. This is a great chance to meet folks from other labs and exchange reagents and ideas. Please share this email with any interested parties that we may have missed.

Announcements can be found on <http://dbc.bio.uci.edu/>.
For questions call Jan Strudwick in the DBC office, jstrudwi@uci.edu (x45957)
