4:15 –4:40	Bogi Andersen (Biochemistry) Is developmental biology any good for understanding cancer?
4:45	Happy hour

Dear Colleagues,

The **Developmental Biology Center** & Developmental Biology of Cancer program in the Chao Family Comprehensive Cancer Center invite you to a Friday afternoon happy hour and mini symposium with a focus on Cancer. This is open to all members of the UCI research community (Grad students, post docs, 199s, research staff and PIs) who have an interest in these issues.

Please share this email with any interested parties that we may have missed. Thanks, Larry Marsh and Bruce Blumberg
